Search Environments For Media

Browsing Tool Evaluation – Tasks

Start date of project: 1st January, 2007

Duration: 30 months

Project Acronym :	SEMEDIA
Contract No :	FP6 - 045032
Due Date :	Dec: 2007
Reply To:	Werner Bailer <werner.bailer@joanneum.at>

Evaluator Info Sheet

User ID	Group ID		
---------	----------	--	--

Please have a look at the data set at the upper right of the task sheets. You will use the same data set for 4 tasks. Open the browsing tool with the right data set.

Material request tasks (T...)

- Use the browsing tool to locate all segments that match the given textual description.
- All information you have is on the task sheet, if something matches this description or not is your decision.
- Drag key frames representing matching segments into the result list.
- At the end, save the result list (disk icon) to c:\USERID_TASKID.psv
- Do not forget the fill in the post-task questionnaire on the back of each task sheet.
- Before working on the next task, clear the result list (icon with two “x”).

Questions (Q...)

- You do have to collect clips, but to answer a multiple choice question.
 - Use the browsing tool to look at material and answer the questions.
 - The answers are independent, i.e. they need not all apply to the same clip, but each of them may be true for another clip.
 - None, some or all of the answers may be true.
 - Check all the answers that you find to be correct when looking at the material.
 - Do not forget the fill in the post-task questionnaire on the back of each task sheet.
-

User ID	Group ID	Data set TRECVID	T1
----------------	-----------------	-----------------------------------	-----------

Find segments showing an interview with an African man with a yellow shirt.

User ID	Group ID	T1
---------	----------	----

TVB.1 I was familiar with the topic of the query.

- Not at all
- A little
- Fairly
- Quite a bit
- Very much

TVB.3 I found that it was easy to find clips that are relevant.

- Not at all
- A little
- Fairly
- Quite a bit
- Very much

TVB.4 For this topic I had enough time to find enough clips.

- Not at all
- A little
- Fairly
- Quite a bit
- Very much

TVB.5 For this particular topic the tool interface allowed me to do browsing efficiently.

- Not at all
- A little
- Fairly
- Quite a bit
- Very much

TVB.6 For this particular topic I was satisfied with the results of the browsing.

- Not at all
 - A little
 - Fairly
 - Quite a bit
 - Very much
-

User ID	Group ID	Data set TRECVID	T2
----------------	-----------------	-----------------------------------	-----------

Find segments showing tourists visiting a town/city.

User ID	Group ID	T2
